## RapidFire Heater Bands

Molders Services, Inc. (MSI) is pleased to offer an outstanding line of RapidFire Heater Bands. These systems replace your existing heater band setup with a thermally efficient, cost-effective solution. Once installed, the RapidFire heat system not only saves energy, but will also aid in reducing the ambient temperature in your plant. Contact MSI today to have one of our representatives calculate a budgetary quote, including projected savings, estimated breakeven and payback.

### Excellent Value

- Reduces barrel heating time
- Reduces energy consumption
- Cuts air conditioning costs
- Protected barrel cool to the touch
- Much safer than blankets
- Durable and low maintenance
- Cost and energy efficient

### Overall Benefits

- Easy to install
- Custom made to fit
- No disruption to existing set-up
- Uses existing controller and wiring
- SSRs and contacts remain intact
- Energy efficient transfer-to-melt
- Greater output consistency
- Improved finished product quality
- Energy savings of up to 40%
